Work Experience

JLCoders

Remote - Oct 2023 - Jun 2024

React Native - MERN stack React Native developer

- Engineered solutions alongside teammates during development sprints focused on building out essential functions for administrator roles in workshops. Contributed code that reduced bug reports related to data entry errors by 60%.
- Developed fully functional React Native components using TypeScript to support administrative workflows for a mechanical workshop.
- Redesigned the app's UI for better usability, improving task completion rates by 25%.
- Built worker profile management features, enabling CRUD operations for over 200 employee records.
- Implemented a task finder allowing advanced search by name and date, reducing search time by 30%.

OdlaMer

Stockholm - Sep 2022 - Sep 2023

React Native Front-End developer

- Integrated Giphy API and DeepL to provide multilingual and dynamic content in user comments.
- Enhanced user engagement by developing interactive GIF and image features in posts, leading to a 20% increase in user activity.
- Streamlined the onboarding process, increasing new user retention, and implemented secure OAuth 2.0 login with Google and Apple.
- Leveraged React Native, JavaScript ES6+, TypeScript, Redux, and Firebase.
- Spearheaded app performance optimizations, reducing load times by 30% and ensuring high scalability for daily users.
- Designed and implemented advanced push notification features.

Scania

Stockholm - Sep 2018 - Jul 2021

IT-Support Specialist

- Diagnosed and resolved Office 365 issues for over 150 employees weekly, ensuring uninterrupted operations.
- Automated repetitive administrative tasks in Active Directory using PowerShell scripts, saving five hours per week.
- Handled technical support tickets via BMC Remedy and ServiceNow, achieving a 95% resolution rate within SLA.
- Provided expert-level remote support using TeamViewer and RDP, minimizing downtime for end-users.

EDUCATION & CERTIFICATIONS

Hyper Island

Stockholm - Aug 2021- Mar 2023

Front-end Development

- Relevant Coursework: MERN Stack, UI/UX Design, Responsive Web Design, JavaScript Frameworks, Front-End Testing, Agile Development.

Jensen Komvux

Stockholm - Mar 2017 – Apr 2018

Network & Support Technician

- Relevant Coursework: Networking Fundamentals, Cisco, IT Support, System Administration, Hardware Maintenance, Troubleshooting, Customer Service, Documentation.

SKILLS & INTERESTS

Skills: JavaScript (ES6+), React (Hooks, Context), State Management (Redux, MobX), MongoDB, Version Control (Git, GitHub), CSS (GlueStackUI, MaterialUI), Tanstack Query, APIs (RESTful), TypeScript, Firebase, Node.js.

Languages: English (Fluent), Spanish (Native), Swedish (Professional).

Interests: Reading, sports, languages, attending coding meetups, learning new programming languages.
